

KISHAN DANI

.NET FULL STACK DEVELOPER

C# • ASP.NET Core • Web API • Angular • SQL Server • Entity Framework • Azure

PROFESSIONAL SUMMARY

.NET Full Stack Developer with 2+ years of professional experience building, maintaining, and enhancing enterprise web applications using C#, ASP.NET Core, ASP.NET MVC, Web API, Angular, SQL Server, Entity Framework, LINQ, Microsoft Azure, and IIS. Experienced across frontend, backend, database integration, REST API development, authentication and authorization, role-based access, deployment, production support, troubleshooting, and application enhancements. Delivered contributions across Intranet, Employee Appraisal, Bills Management, and LMS applications.

TECHNICAL SKILLS

Languages	C#, JavaScript, HTML5, CSS3
Backend & APIs	ASP.NET Core, ASP.NET MVC, ASP.NET, Web API, REST APIs
Frontend	Angular, Bootstrap, JavaScript, HTML5, CSS3
Data Access	Microsoft SQL Server, Entity Framework, LINQ, database integration, database optimization
Security	Authentication, Authorization, Role-Based Access Control
Architecture	MVC, Layered Architecture
Cloud & Deployment	Microsoft Azure, IIS
Version Control / DevOps	Git, CI/CD
Engineering	Full-stack development, application troubleshooting, production support, application enhancement

PROFESSIONAL EXPERIENCE

Sattva Group Pvt. Ltd. — .NET Full Stack Developer

June 2024 – January 2026

- Developed and enhanced enterprise web applications using ASP.NET Core MVC, C#, Angular, SQL Server, and Web API.
- Contributed to end-to-end application development for Intranet, Appraisal, Bills Management, and LMS platforms.
- Developed and integrated REST APIs supporting application functionality and business workflows.
- Implemented authentication, authorization, and role-based access control for secure application access.
- Integrated application functionality with SQL Server using Entity Framework and LINQ.
- Worked across frontend, backend, and database layers to deliver requirement-driven features and enhancements.
- Supported database optimization and application performance improvements.
- Supported deployment through IIS and Microsoft Azure and assisted with production issues.
- Investigated, troubleshooted, and resolved application issues while maintaining secure and maintainable solutions.
- Collaborated with cross-functional teams to understand requirements and deliver business application changes.

Aatral Technology Pvt. Ltd. — .NET Full Stack Developer

August 2023 – May 2024

- Developed and maintained enterprise web applications using ASP.NET Core, C#, Angular, and SQL Server.
- Developed and integrated REST APIs and implemented authentication, authorization, and role-based access.
- Worked across frontend, backend, and database layers as part of full-stack development.
- Supported application deployment, production issue resolution, and ongoing application improvements.
- Contributed to application performance, security, and workflow automation improvements.

SELECTED PROJECT EXPERIENCE

Enterprise Intranet Portal

Technology: ASP.NET Core | C# | Angular | SQL Server | Web API

Enterprise internal portal supporting business users and internal information access; contributed to full-stack development, secure access, role-based functionality, database integration, and enhancements.

Appraisal Portal

Technology: ASP.NET Core | C# | Angular | SQL Server | Entity Framework

Employee appraisal application; contributed to application development, business functionality, database integration, maintenance, and enhancements.

Bills Management Portal

Technology: ASP.NET Core | C# | Angular | SQL Server | Web API

Business application for bills-related processes; contributed to application functionality, database integration, enhancements, maintenance, and issue resolution.

LMS Portal

Technology: ASP.NET Core | C# | Angular | SQL Server

Enterprise learning management application; contributed to full-stack development, maintenance, database integration, and application enhancements.

CORE DEVELOPMENT STRENGTHS

- Full-Stack Development: frontend, backend, API, and database-connected enterprise applications.
- Backend: C#, ASP.NET Core, MVC, Web API, REST API development and integration.
- Frontend: Angular-based interfaces with JavaScript, HTML5, CSS3, and Bootstrap.
- Database: SQL Server integration, Entity Framework, LINQ, and database optimization.
- Security: authentication, authorization, and role-based access control.
- Deployment & Support: IIS/Azure deployment, production troubleshooting, issue analysis, and maintenance.

EDUCATION

Bachelor of Science - Computer Science

Gulbarga University | 2019 - 2022 | CGPA: 8.04

CAREER TARGET

Target roles: .NET Full Stack Developer | ASP.NET Core Developer | C# Developer | .NET Developer | Full Stack Developer (.NET + Angular). Focused on enterprise web applications, REST API-driven systems, SQL-backed applications, and Azure-enabled solutions.
